SOHAM FOR KIDS:

A GENUINE START IN LIFE FOR CHILDREN WHO HAVE NOTHING

The grinding poverty that dominates so many lives in India is especially shocking when it affects vulnerable children who have no means of helping themselves. Soham For Kids is a welcoming school that helps some of India's most deprived children to benefit from a start in life that most of us take for granted.

- A holistic approach: we provide vital clothing, food and healthcare alongside education.
- Non-denominational: unlike many schools in India, we accept children of all faiths and none.
- Completely free: while some charitable schools in India charge for places, we do not.
- Aiding the community: we provide classes and other facilities to help the families and guardians of our pupils.
